The giclée (zhee-clay) print is the result of a new computer-generated process. The ink-jet technology produces an endless range of color giving the print precise hue, value and intensity of the original. Every detail of the original artwork is duplicated, producing the most accurate reproduction process possible. Giclée's are professionally printed on high quality watercolor paper. This is an ideal solution if you would like a copy of your original painting. *The desk-size giclée (5x7") is only available if a full size giclée is also ordered.
